Reviewer's report

Title: Melasma and its association with different types of nevi in women: A case control study

Version: 5 Date: 21 May 2008

Reviewer: Mauro Picardo

Reviewer's report:

the authors answered to most of the questions raised and, in my opinion, have better clarified the aim of the work

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
