Reviewer's report

Title: Exploratory factor analysis of the Dizziness Handicap Inventory (German version)

Version: 2  Date: 1 March 2010

Reviewer: Johan Holmberg

Reviewer's report:

I am glad to see that you managed to change the manuscript in a satisfactory way.

I realize that due to some of my comments corrections were made in the manuscript and to others no corrections were made but explanations were presented in response to my questions. I find that those responses make it easier to understand the text. I think still the manuscript would benefit from more of this kind of clarifications. (Discretionary Revisions).

Yours sincerely
Johan Holmberg

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
