Reviewer's report

Title: Signs and symptoms of temporomandibular joint disorders related to the degree of mouth opening and hearing loss.

Version: 3 Date: 6 May 2011

Reviewer: Thais Chaves

Reviewer's report:

The paper entitled “SIGNS AND SYMPTOMS OF TEMPOROMANDIBULAR JOINT DISORDERS RELATED TO THE DEGREE OF MOUTH OPENING AND HEARING LOSS” is an interesting report about the association between TMD and hearing loss.

The paper was completely revised and I would like to congratulate the authors for the excellent and hard work.

However, I suggest a revision of the references (page 11), since there are many format problems (references 33 to 38 and 42 to 47 are not in the right format).

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
