Title: Solid type primary intraosseous squamous cell carcinoma in the maxilla: report of a new case

Version: 1 Date: 21 October 2013

Reviewer: Isaäc Van der Waal

Reviewer’s report:

The text of all sections is much too detailed for a relatively simple case report. Please reduce with some 50%.

There are too many references.

Delete figs. 3, 4b, 5 and 6, since they have not much relevance. Note that the figure numbers as mentioned on page 13 are different from the numbers that are printed on the pictures themselves.

Level of interest: An article of limited interest
