Reviewer's report

Title: Coronary artery bypass grafting and sensorineural hearing loss, a cohort study.

Version: 1 Date: 18 April 2005

Reviewer: Peter Weber

Reviewer's report:

In reference to what you have written to date:
Intro page 5 the last two paragraphs; A review of the literature.... you must have references for all of the claims you are making.

The same anesthesia must be used in controls as well as cardiac patients

Why does history of SNHL exclude patients. In fact these patients may be more susceptible to hearing loss.
