Reviewer's report

Title: Cholesteatoma of the external ear canal. Etiological factors, symptoms and clinical findings in a series of 48 cases.

Version: 1 Date: 30 October 2006
Reviewer: Ramin Naim

Reviewer's report:
Basically, the manuscript is well organized. Overall all the paper is well written and covers the topic. I would recommend to publish the paper.

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable
