Reviewer's report

Title: Hyperthyroidism and Bone Status: Impact of Severity, Duration, and Etiology of Hyperthyroidism on Bone Turnover Markers and Bone Mineral Density

Version: 3 Date: 13 July 2011

Reviewer: Olivier Chassande

Reviewer's report:

The manuscript has been greatly improved. in particular, correlation curves illustrate much better than tables the purpose of the authors. The manuscript should be accepted for publication. This is a very nice study.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
