Reviewer's report

Title: Advanced Age, Altered Level of Consciousness and a New Diagnosis of Diabetes are Independently Associated with Hypernatremia in Hyperglycaemic Crisis

Version: 2 Date: 19 March 2011

Reviewer: Susan Braithwaite

Reviewer's report:

The use of readmissions of the same patient can potentially lead to statistical error through autocorrelations; at least having mentioned the re-use of individual cases, the reader is alerted.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
