Reviewer's report

Title: Right thyroid hemiagenesis with adenoma and hyperplasia of parathyroid glands - case report

Version: 1 Date: 19 September 2012

Reviewer: Orhan Veli Ozkan

Reviewer's report:

To the Editors, 19.09.2012

This case report entitled ‘Right thyroid hemiagenesis with adenoma and hyperplasia of parathyroid glands - case report ’ is an article of merit and interest in its field

Overall study appears to be contributory to the current literature and the manuscript is quite well-written. The language is good, grammatical and spelling errors are rare. Total length of the manuscript appears to be optimum. The number of tables is sufficient. However, it requires a number of revision.

1. Authors should add scintigraphic images to point out thyroid hemiagenesis.

As a conclusion, the manuscript could be accepted in order to be published in your journal after completing the above revision.

Yours sincerely.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
