Reviewer's report

Title: Waist to Height Ratio, a Simple and Practical Index for Gout in Taiwanese Men

Version: 1 Date: 18 May 2013

Reviewer: asher fawwad

Reviewer's report:

The article is a nice effort to highlight an important topic. Following are a few suggestions to improve the manuscript:

• Describe the numbers in words at the beginning of sentences.
• Written English of the article needs improvement. There are typing errors and grammatical mistakes.
• Please explain the basis of using the old data collected between 1993-1996.
• Title of the study needs to be modified considering the objective of the study.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
