Reviewer’s report

Title: Behavioral and clinical correlates of serum bilirubin concentrations in Japanese men and women.

Version: 2 Date: 15 August 2013

Reviewer: Libor Vitek

Reviewer’s report:

The authors satisfactorily replied to all the questions. The only objection is that reply to my comment No. 2 should not be stated only in the Discussion section, but data should also be an integral part of the Result Section.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
