Reviewer's report

**Title:** Central Precocious Puberty in a 3 year-old girl with Phenylketonuria: a rare association?

**Version:** 2  
**Date:** 5 March 2014

**Reviewer:** Atilla Prof Dr Buyukgebiz

**Reviewer's report:**

Although seen in 1/1000 in European or North America, PKU is seen in 1/3500 -5000 cases in Turkey and with a similar frequency in the countries with high consangineous marriages. Interestingly with a high percentage in Ireland.

**Level of interest:** An article of outstanding merit and interest in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests
