Reviewer’s report

Title: The association between improved quality diabetes indicators, health outcomes and costs: towards constructing a "business case" for quality of diabetes care- a time series study.

Version: 1 Date: 13 July 2014

Reviewer: Nikolaos Papanas

Reviewer’s report:

This is an interesting study. The data is useful, the discussion is eloquent, and the strengths/limitations are referred to.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
