Reviewer's report

Title: Discordance in diagnosis of osteoporosis using spine and hip bone densitometry

Version: 3 Date: 25 January 2005

Reviewer: Florent Richy

Reviewer's report:

General

You have to be commented for your careful revision of this manuscript, and for your extensive responses to reviewers. Accordingly, I have no more comments.

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Please check the text carefully for grammar and syntax errors.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No
