Reviewer's report

Title: A IGF-I promoter polymorphism modifies the relationship between birth weight and risk factors for cardiovascular disease and diabetes at age 36

Version: 4 Date: 5 May 2005

Reviewer: Ian N Day

Reviewer's report:

General

------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
