Reviewer's report

Title: The spectrum of thyroid dysfunction in an Australian hepatitis C population treated with combination Interferon-alpha-2beta and Ribavirin

Version: 2 Date: 8 September 2005

Reviewer: Lewis Braverman

Reviewer's report:

General
i still believe that this ms. is marginal at best .also they did not adequately respond to 4 and 8 of my review .

---------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

---------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

---------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
