Reviewer's report

Title: Amiloride derivatives enhance insulin release in pancreatic islets from diabetic mice

Version: 2 Date: 18 October 2005

Reviewer: Hans-Juergen Mest

Reviewer's report:

General
The revised version of the manuscript is now acceptable for publication.
-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
I declare that I have no competing interests.
