Reviewer’s report

Title: Mitochondrial DNA Mutations in Oxyphilic and Chief Cell Parathyroid Adenomas

Version: 3 Date: 30 June 2007

Reviewer: yufei shi

Reviewer’s report:

General

The authors have adequately addressed my concerns in the revised manuscript.

----------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

----------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

----------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

----------------------------------------------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
