Reviewer's report

Title: Relating circulating Thyroid hormone concentrations to Serum Interleukins-6 and 10 in association with non-thyroidal illnesses including Chronic Renal insufficiency

Version: 2 Date: 16 August 2007

Reviewer: George Chrousos

Reviewer's report:

General
A well written paper with interesting findings.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None.

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None detected.

Discretionary Revisions (which the author can choose to ignore)
The language needs a little help!

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
