Title: Factors influencing the growth hormone peak and plasma insulin-like growth factor I in young adults with pituitary stalk interruption syndrome

Version: 2 Date: 9 May 2008

Reviewer: Feyza Darendeliler

Reviewer's report:

The authors present retrospective longitudinal data on a group of patients with PSIS. The numbers are small but the limitations of the study are well documented.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
