Reviewer's report

Title: Cost-effectiveness comparison between palpation- and ultrasound-guided thyroid fine-needle aspiration biopsies

Version: 5 Date: 4 May 2009

Reviewer: Carlo Cappelli

Reviewer's report:

The Authors have improved this article. I still believe that it is present a bias in this work. Anyway, with the improvents given by The Authors it's now suitable for publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
