Reviewer's report

Title: The consequences of delaying insulin initiation in UK type 2 diabetes patients failing oral hyperglycaemic agents: a modelling study

Version: 2 Date: 13 May 2009

Reviewer: Andreas Pfützner

Reviewer's report:

I have reviewed the changes made by the authors, which in my consideration have appropriately addressed the raised critizisms. I would therefore consider the manuscript to be now suitable for publication in BMC Endocrine disorders.
