Reviewer's report

Title: Prediction of width of un-erupted incisors, canines and premolars in a Ugandan population: a cross sectional study

Version: 1 Date: 1 March 2011

Reviewer: andrea marinelli

Reviewer's report:

Major Compulsory Revisions:
1. In the paragraph “reliability error”:
coefficients of reliability for all the variables as suggested by Houston should be provided
2. What was the rationale for excluding subjects with spaced or crowded teeth?

Minor Essential Revisions
1. “decent” should be changed in “descent” in the third line

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
