Reviewer's report

**Title:** Oral healthcare of preschool children in Trinidad: A qualitative study of parents and caregivers

**Version:** 2 **Date:** 22 July 2012

**Reviewer:** Robert Schroth

**Reviewer's report:**

This is a revised version of the initial submission. The authors have considered the comments of the reviewers in modifying their paper. 

My only remaining suggestion is that the authors should mention under the limitation section of the discussion that their interview script did not ask about first dental visits by 12 months of age.

A couple of minor spelling and grammatical errors remain and need correction.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests.
