Reviewer’s report

Title: Perception of toothache in adults from state capitals and interior cities within the Brazilian geographic regions

Version: 3 Date: 29 May 2013

Reviewer: Marc W Heft

Reviewer’s report:

A more rigorous assessment of the SES on the dependent variables might provide insights into geographical discrepancies/variation in pain reports.

example of this approach:

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
