Reviewer's report

Title: Erosive and Cariogenicity Potential of Pediatric Drugs: Study of Physicochemical Parameters

Version: 3 Date: 11 November 2013

Reviewer: Dien Gambon

Reviewer's report:

Only one comment "the critical pH don't excist, because in different situation the pH at which enamel dissolve is different, for example in patient with anorexia the mouth is more acidic.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
