Title: Evaluation of maxillary anterior teeth and their relation to the golden proportion and golden standard in malaysian population

Version: 3 Date: 22 September 2012

Reviewer: Asja Celebic

Reviewer's report:

ABSTRACT:
METHODS: Dental casts of the maxillary arches were made in this crosssectional study from MAHSA University College students whom met the inclusion criteria. instead of whom - who

DISCUSSION
However, the golden proportion idea can no longer be considered since many articles found that golden proportion didn’t exist. You have to list several articles (references), eg. down listed are some references for Caucasians in Bosnia and Croatia

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a
statistician.
