Reviewer's report

Title: Evaluation of maxillary anterior teeth and their relation to the golden proportion and golden standard in Malaysian population

Version: 3 Date: 1 October 2012

Reviewer: Stephen F Rosenstiel

Reviewer's report:

This is a generally well-written manuscript on the anterior tooth esthetics of different Asian ethnic groups, a topic of interest to the readership of a dental journal. The study is largely observational and

1. the research hypothesis should be more clearly stated.
2. Supply a justification of sample size (power analysis).
3. State It is unclear how the ethnic groups were determined and discuss accuracy should be discussed.
4. Remove illustrations.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
