Reviewer's report

**Title:** Evaluation of maxillary anterior teeth and their relation to the golden proportion and golden standard in malaysian population

**Version:** 4  **Date:** 29 October 2012

**Reviewer:** Stephen F Rosenstiel

**Reviewer's report:**

The authors have addressed most of the concerns except the power analysis. This is needed to support their conclusions about lack of significant differences. They should consult with a statistician.

**Level of interest:** An article of limited interest

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**

'I declare that I have no competing interests'
