Reviewer's report

Title: Correction of malocclusion and oral rehabilitation in a case of amelogenesis imperfecta by insertion of dental implants followed by Le Fort I distraction osteogenesis of the edentulous atrophic maxilla

Version: 7 Date: 3 July 2014

Reviewer: Mousumi Goswami

Reviewer's report:

Major Compulsory Revisions:
1. The standard Vancouver referencing style is not followed in whole format.
2. Lack of standardized Size & resolution of clinical & radiographic photographs which are disproportionate. (Fig. 2-7)

Minor Revisions
Fig 7: The preoperative & postoperative cephalogram tracing dates are similar, kindly check the same.

"Minor issues not for publication
A grammatical error of “esthetical point of view” instead of “chewing & esthetics” on para 4
A spelling error of “stabile” instead of “stable” on para 7

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
