Reviewer's report

Title: Orthodontic treatment of children/adolescents with special health care needs: An analysis of treatment length and clinical outcome

Version: 2 Date: 20 May 2014

Reviewer: Andreas Hellak

Reviewer's report:

Re - Reviewer's report

1. The authors give more information for the inclusion criteria for the SHCNs group according to the WHO definition.
2. With the limitations of the study's retrospective character it is not possible to get more information about the exact chair time within each group.
3. Using the Table 1 there is more information and a better understanding of the statistics in this study.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
