Reviewer’s report

Title: Randomized Study to Disseminate Caries-Control Services in Dentist Offices

Version: 2 Date: 5 April 2006

Reviewer: Manuel Bravo

Reviewer’s report:

General. I find the authors have adequately answered my previous concerns. I agree with the other reviewer that this is an excellent pilot study, rather than a definitive report. Nevertherless I do not know if this is or not adequate for this journal.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
