Reviewer's report

Title: Knowledge and Attitude of Final Year Medical Students in Germany towards Palliative Care - an interinstitutional questionnaire-based study

Version: 2 Date: 18 July 2011

Reviewer: Doreen Oneschuk

Reviewer's report:

Review of Manuscript post revisions: I feel the manuscript is not quite ready for publication. Changes to the grammar/syntax are still required, and I have attempted to assist with the editorial process by incorporating some tracked changes (in addition to the authors). I also have a number of queries throughout the manuscript to be further addressed please. I have recommended some changes to Figure 1 and the 2 Tables which I will need to send as a separate email attachment.

I would recommend the manuscript be reviewed again following the recommended changes.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
