Reviewer's report

Title: Prevalence and profile of unrecognised palliative patients in hospitals

Version: 4 Date: 21 December 2010

Reviewer: Merryn Gott

Reviewer's report:

I am happy that the changes I suggested, as well as those recommended by the other reviewers, have been addressed. It would benefit from a final edit for language/grammar. But overall the paper is much improved and very interesting; I think it makes a valuable contribution to the literature.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
