Reviewer's report

**Title:** Evidence for the use of Levomepromazine for symptom control in the palliative care setting: a systematic review.

**Version:** 3  **Date:** 11 January 2013

**Reviewer:** Paul Howard

**Reviewer's report:**

Dear colleagues,
I've no changes to suggest, and congratulate and thank the authors for producing a really valuable summary of the literature underpinning a widely used drug.
Best wishes
Paul Howard

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I edit the antipsychotic chapter introduction and levomepromazine monograph in the Palliative Care Formulary.
