Reviewer’s report

Title: A Modified Systematic Review of Research Evidence about Education for Pre-registration Nurses in Palliative Care

Version: 3 Date: 7 July 2014

Reviewer: Sarah Russell

Reviewer’s report:

Discretionary revisions:
1. The abstract comments that the review was done because of a need to look at education in Cameroon. Would be nice to specifically link back to this in the conclusions
2. I know thus is about pre reg education, but wondered if there were implications for post reg education
3. Related to this, if any outcomes in terms of patient experience rather than e.g increase in learners confidence noted..if not in evidence, clarify

But these are minor suggestions and I really enjoyed this paper finding it well written, well informed and very relevant to practice

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
