Title: Attitudes towards Terminal Sedation: An Empirical Survey among Experts in the Field of Medical Ethics

Version: 2 Date: 28 March 2007

Reviewer: Judith AC Rietjens

Reviewer's report:

General
The authors have significantly improved their manuscript in their revision and I have no further comments.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
