Reviewer’s report

Title: A Reliability and Validity Study of the Palliative Performance Scale

Version: 5 Date: 8 July 2008

Reviewer: Keith G Wilson

Reviewer’s report:

This manuscript represents a revision of a previous submission that, while presenting interesting data, still required some work. The authors have done a conscientious job of addressing all the suggestions that I had made on the last draft, and I have no more substantive comments, other than to say this is a good contribution to the field.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
