Reviewer's report

Title: A cross-sectional study of different patterns of oral contraceptive use among premenopausal women and circulating IGF-1: implications for disease risk.

Version: 3 Date: 18 April 2011

Reviewer: Andrea Arikawa

Reviewer's report:

I believe the revisions done by the authors significantly improved the clarity and quality of this manuscript. My recommendation is to publish this manuscript as revised.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
