Reviewer’s report

Title: Psychosocial impact of perinatal loss among Muslim women

Version: 4 Date: 30 May 2012

Reviewer: Elizabeth Peel

Reviewer’s report:

The authors have done a good job of engaging with the reviewers’ comments. I was especially pleased to see the inclusion of extracts from the fieldnotes as data in the revised version. Some more language correction is needed prior to publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
