Title: Comparing health-related quality of life of employed women and housewives: a cross sectional study from southeast Iran

Version: 10 Date: 16 October 2012

Reviewer: Pawel Zagozdzon

Reviewer’s report:

The authors resubmitted their paper on Quality of Life in housewives and employed women in southeast Iran after suggested corrections. Despite some minor issues, authors were able to describe highly contextualized situation related to quality of life in Iranian women and I recommend to publish this paper. Proofreading by a native-speaker might be helpful.
