Reviewer's report

Title: Development of a diagnostic test set to assess agreement in breast pathology: Practical application of the Guidelines for Reporting Reliability and Agreement Studies (GRRAS)

Version: 2 Date: 7 November 2012

Reviewer: Anna Sapino

Reviewer's report:

The manuscript is a good example for the development of diagnostic test sets to assess agreement in breast pathology. I think it can be used by others as a model for this type of studies. I just suggest to spell out HIPAA

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
