Reviewer's report

Title: Prevalence of lymphedema in women under treatment for breast cancer in a referral center in southeastern Brazil

Version: 4 Date: 25 October 2012

Reviewer: Aase S, A Sagen

Reviewer's report:

Title: Prevalence of lymphedema in women under treatment for breast cancer in a referral center in southeastern Brazil

Minor Essential Revisions

1. The previous revised version addressed the comments satisfactory.
2. Please check the English writing; the hypothesis is unclear. And page 6; dominant harm. Arm?

No further comments

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
