Reviewer’s report

Title: Hysteropexy in the treatment of uterine prolapse stage 2 or higher: a multicenter randomized controlled non-inferiority trial comparing laparoscopic sacrohysteropexy with vaginal sacrospinous hysteropexy (LAVA-trial)

Version: 2 Date: 28 February 2014

Reviewer: Hans Van Geelen

Reviewer’s report:

The only practical question ids the great number of validated questionnaires: total 7 !. This is perhaps: overdoing.
The reviewer wonders if the participating women will be able to complete all these questionnaires

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
