Reviewer's report

Title: Characteristics of sexual violence against adolescent girls and adult women

Version: 2 Date: 9 May 2013

Reviewer: Polona Selic

Reviewer's report:

By my opinion authors haven’t addressed comments provided by both reviewers thoroughly enough, e.g. there are several uses of the term “author” instead of “perpetrator as advised (minor but puzzling inconsistency). The texts still lacks “limitations to the study” part.

Authors are advised to follow reviewer’s recommendation and comments more strictly. In case of disagreement with those, explanation is to be provided in the cover letter.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
