Reviewer's report

Title: Do Indonesian medical practitioners approve the availability of emergency contraception over-the-counter? A survey of general practitioners and obstetricians in Jakarta.

Version: 1 Date: 21 February 2005

Reviewer: tanja tydå©n

Reviewer's report:

General
The manuscript could be accepted as it is. It is well written and easy to understand. The authors are updated with references, the methodology was ok, and they are careful in their conclusions. A cultural discussion could be added in the discussion.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after discretionary revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
