Reviewer's report

**Title:** Aberrations of TACC1 and TACC3 are associated with ovarian cancer

**Version:** 2  **Date:** 18 May 2005

**Reviewer:** Andrew Shelling

**Reviewer's report:**

General
Thank you, the authors have made acceptable changes to my review, and I'm happy for the publication to go ahead.

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------------------------------------------------------

**What next?:** Accept without revision

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No
