Reviewer's report

Title: Breast Cancer Risk associated with different HRT formulations. A register-based case-control study.

Version: 2 Date: 10 August 2006

Reviewer: Andrea Riccardo Genazzani

Reviewer's report:

General
The re-submitted paper is well done and authors responded to reviewer's request. Publication is now warmly suggested.

----------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
none

----------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
none

----------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
none

What next?: Accept without revision
