Reviewer's report

Title: Time to decide about risk-reducing mastectomy: A case series of BRCA1/2 gene mutation carriers

Version: 2 Date: 15 February 2007

Reviewer: Nina Hallowell

Reviewer's report:

General
The authors have addressed my previous comments satisfactorily, both within the text or in their response, I am therefore, happy to recommend publishing this article with no further revisions.

------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
