Reviewer's report

Title: What aspects of periods are most bothersome for women reporting heavy menstrual bleeding? Community survey and qualitative study

Version: 3 Date: 18 April 2007

Reviewer: Mark Shapley

Reviewer's report:

General
I feel that the authors have now answered my concerns.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
